**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Whitham on May 10, 2007.

2. The application has been amended as follows:  
  
In claim 8, on line 9, "in each case a" has been replaced by -- two --.  
  
In claim 8, on line 9, "element is" has been replaced by -- elements are --.  
  
In claim 8, on line 11, -- each of -- has been inserted between "by" and "the".
3. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figure 3 must be labeled. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.
4. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because: It does not identify the citizenship of each inventor. For the fourth inventor, Martin Schoeps, the citizenship has been omitted and the post office address has been entered on the citizenship line.

5. The following is an examiner's statement of reasons for allowance:

With respect to claim 1, the prior art does not teach or render obvious a printing blanket assembly as claimed, particularly including two supporting elements each arranged between a turned-over edge of an associated limb and an inner side of the printing blanket.

With respect to claim 8, the prior art does not teach or render obvious a method for producing an printing blanket assembly as claimed, particularly including introducing two supporting elements into the interspaces between printing blanket and carrier plate formed by each of the turned-over edges.

With respect to claim 9, the prior art does not teach or render obvious a method for producing an printing blanket assembly as claimed, particularly including that before or after the printing blanket is fixed to a carrier plate, the supporting material is severed, forming two supporting elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jill E. Culler whose telephone number is (571) 272-2159. The examiner can normally be reached on M-F 10:00-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Judy Nguyen can be reached on (571) 272-2258. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
